Computer Science - Mathematical Structures in Computer Science (MSCS) is a journal of theoretical computer science which focuses on the application of ideas from the structural side of mathematics and mathematical logic to computer science. The journal aims to bridge the gap between theoretical contributions and software. Fri, 09 Nov 2018 18:35:00 GMT Mathematical Structures in Computer Science - Assets - Martin-Löf of type theory with the univalence axiom as a new foundation for Mathematics. Later it was found that the addition of higher inductive types was necessary to model general homotopy colimits. Mathematical Structures in Computer Science - Surprisingly, in the midst of learning the language of mathematics, we come across the most important open problem in computer science—a problem whose solution could change the world.
